- \* Lone Star Class Feb.16th. 10am-12
- \* Open Sew Wednesdays
- \* Longarm Ruler Work

Coburn's Quilting moved to our own building in Nov. 08. We have a great new space. The rooms are bright and have great natural light. We had a wonderful open house in Dec. Our new class schedule is ready.

We look forward to having you stop in. Thank you for your support.

Our new shop is working out just great. My Milli just loves the room with lots of natural light.

We are starting the new year with some basic quilt classes for beginners and a T shirt class that is for anyone who knows how to sew.

T-Shirt class will make fast work of those t-shirts that you just can't throw away. You will have a great keepsake that will also keep you warm. 3 week. \$60.00

The Beginning Quilters class will offer the basics for those who have never pieced a quilt top. This 6 week program will cover rotary cutting, precision piecing, inner and outer borders. You will have the choice of 6 or 12 blocks. \$120. includes book.

The Lone Star Class starting in Feb. is an advanced class. Please have some knowledge of machine piecing and stripe methods before you sign up for this class.

This is a 4 week program.\$80.00

Open sewing: Bring in something from our classes or an unfinished project (UFO) you might need to finish.

Longarm Ruler Work is designed to show you how to use the guides and the extended base on your Longarm machine. \$20.00 1hr. By appointment

Renters Class is for anyone with tops you would like to quilt yourself. This is a 4 hour class limited to 4 people. Fees include your own set of "Zipper". \$

Coburn's Quilting is an APQS dealer.

We have the Millennium on display at all times. Stop in and give her a whirl. We have used machines available. APQS machines rarely need service but when they do we can do that too. Here at Coburn's our name is on the door and we want to make sure we have done all we can to service your quilting needs.
